

Hitchhiker 2025

Release Notes

The following are highlights of the *Eighteenth Edition* of Hitchhiker's Guide to Faculty Retirement.

1. Editorial enhancements were made throughout the document.
2. Updates and clarifications were provided regarding continuation of retirement contributions after retirement for those on payroll, surviving spouse benefits, retiree health benefits, letter of agreement (at retirement), off boarding and on boarding after retirement, parking, recreation, and cultural activities.

Faculty who have already retired are encouraged to review the Rights and Privileges section every now and then, to ensure that they are taking advantage of all those to which they are entitled.

It is strongly suggested that those in or approaching retirement share Hitchhiker with relevant members of their households.
